

## Experience Fabrication Technology in Action

**WEDNESDAY/THURSDAY, MAY 13/14 • 9:00AM–4:00 PM**

Join us May 13–14 at the Mac-Tech showroom for live equipment demos, expert conversations, vendor support, and financing options designed to help metal fabricators make smarter equipment decisions.

### EVENT SNAPSHOT

- Mac-Tech Showroom – Milwaukee, WI | 8397 N 87th St • Milwaukee WI 53224
- May 13–14
- Live equipment demos
- Meet industry experts
- Financing options available

### LIVE MACHINE DEMOS

#### ***See Equipment Running Under Power***

At the Mac-Tech Open House, visitors will see live demos of the Erbend PBC2015 and the Ermaksan EVO III Hybrid Press Brake.

### ERBEND PBC2015

See how modern folding technology can help improve bending speed, consistency, and productivity while supporting a wide range of sheet metal applications.

### ERMAKSAN EVO III HYBRID PRESS BRAKE

Experience the precision, energy efficiency, and repeatable bending performance of the EVO III — a hybrid press brake built for today's demanding fabrication environments.
